Objective

Highly skilled and motivated Software Engineer with a strong background in software development, coding, and problem-solving. Seeking a challenging position in a forward-thinking tech company to contribute to cutting-edge software projects and drive innovation.

Education

Bachelor of Science in Computer Science

Techtopia University

Techville, Siliconland

Graduated: May 2019

Professional Experience

Senior Software Engineer

CodeCrafters Inc.

Techville, Siliconland

June 2019 - Present

- Led a team of software developers in the design and implementation of complex software solutions for clients in various industries.

- Developed robust and scalable backend systems using Python, Java, and Node.js.

- Designed and maintained databases, optimizing query performance and data integrity.

- Collaborated closely with cross-functional teams to gather requirements and ensure seamless integration of software products.

- Mentored junior engineers, conducted code reviews, and provided technical guidance.

- Contributed to the adoption of agile development methodologies, resulting in improved project delivery timelines.

Software Engineer

TechGenius Solutions

Silicoville, Siliconland

May 2017 - May 2019

- Worked on the development of web applications using HTML, CSS, JavaScript, and React.

- Collaborated with product managers and designers to create user-friendly interfaces and responsive designs.

- Debugged and resolved software defects, enhancing product quality and reliability.

- Participated in the creation of technical documentation and user manuals.

- Assisted in the deployment and maintenance of applications on cloud platforms.

Skills

- Programming languages: Python, Java, JavaScript, C++

- Web development: HTML, CSS, React, Node.js

- Database management: SQL, NoSQL (MongoDB)

- Version control: Git

- Software architecture and design patterns

- Agile development methodologies

- Problem-solving and debugging

- Strong communication and teamwork

Certifications

- AWS Certified Solutions Architect - Associate

- Certified ScrumMaster (CSM)

Projects

- **E-commerce Website:** Designed and developed a full-fledged e-commerce platform with payment integration using React and Node.js.

- **Inventory Management System:** Led a team in building an inventory management system for a retail client, improving inventory accuracy by 20%.

- **Personal Finance App:** Created a personal finance app with data visualization features using Python and Django.

Professional Memberships

- Association for Computing Machinery (ACM)

- Institute of Electrical and Electronics Engineers (IEEE)

Volunteer Work

- Volunteered as a coding mentor at local schools, promoting STEM education.

- Organized coding workshops for underprivileged youth to learn programming.

Languages

- English (Native)

- Spanish (Fluent)

Hobbies and Interests

- Open-source software contributions

- Hiking and outdoor activities

- Reading tech blogs and publications
